

## Can I book the Living Room at Home Community Cafe?

### Home Community Café: Our Charitable Aims

- To advance community through providing a facility for local charities and community groups to meet, run events and operate activities, especially those that combat isolation and support vulnerable or marginalised people
- To advance citizenship by supporting local charities and community groups to reach a wider audience, and to get more people involved in their activities
- To provide practical skills training, work experience and other opportunities to young people; those who have been out of work for some time; and people seeking to develop customer service or catering skills

When assessing booking requests Home considers whether the group making the booking encourages diversity and whether the activities of the group will help to foster a sense of belonging within the Home and wider communities.

Home is located in the foyer of Emmanuel Church, and whilst it operates as a separate charitable organisation, room bookings must be for projects aligned with a Christian worldview. Further information is available on request.

**Living Room and Café users may consume food and drink bought on the premises only.**
